

Aptech Releases Comprehensive Accounting Enhancements in New Profitvue Version

User-Driven Upgrades Strengthen Hospitality Industry's Leading Enterprise Accounting System

Pittsburgh, PA – May 18, 2010 – Aptech Computer Systems, Inc., the leading provider of hospitality software for business intelligence and enterprise financial accounting, today announced the release of Version 14 of its Profitvue® Enterprise Back Office Accounting Solution. Profitvue Version 14 delivers more than 100 enhancements that enable users to manage and analyze financial performance information for individual properties and hotel portfolios.

Aptech is the industry standard in hospitality accounting with the Profitvue back office software system and its proven consistent stability and hospitality-specific functionality. More than 95 hotel companies with over 600 properties have standardized their accounting processes with Profitvue. Clients include Crestline Hotels and Resorts, Concord Hospitality, Peabody Hotel Group, and Benchmark Hospitality International.

of Aptech Computer Systems*

“Ninety percent of the enhancements added to Profitvue Version 14 are user-driven,” said Aptech Vice President Cam Troutman. “We listen closely to what our clients say about their operational needs. We transform their suggestions to the newest system version that supports our customers’ goals for efficient daily operations that maximize profits.”

Aptech beta tested Profitvue Version 14 with several key clients, including Prospera Hospitality and Concord Hospitality, in advance of a forecasted June rollout. New aspects of the software include:

- Enhancements to the financial statements, including 10 column variance reporting, side-by-side expense/cost per occupied room analysis and newly available cosmetic formatting options.
- Added functionality to Multi-Company processing including Cash Requirements, Check Book and Trial Balance Reports for easier company-wide verification.
- Ad-hoc General Ledger and Accounts Payable exports for added data evaluation.
- Enhanced formatting options for all Profitvue reports.

Aptech Computer Systems

Aptech Computer Systems, Inc., based in Pittsburgh, Pennsylvania, leads the hospitality industry in leveraging change by valuing human relationships and applying technology to solve business problems for people. Incorporated in 1970, Aptech is a financial and operations technology solutions and service company whose products include state-of-the-art back office, business intelligence, and enterprise planning products: Profitvue®, Execuvue®, and Webvue®.
